

# Care2Learn

---

## Company Description

Care2Learn delivers an easy-to-use, fully-hosted online university solution for long-term healthcare compliance training and education. Each online university comes branded with your organization's logo and colors, and is fully-stocked with courses from the most extensive online course library in the post-acute care industry. The Care2Learn library features more than 2,700 hours of online courses, featuring the industry's largest inservice selection and courses accredited by more than 50 state and national organizations.

There is no other Learning Management System in the industry like ours. It is developed specifically to meet and document compliance needs, meet regulatory CE requirements, manage accreditations, and measure employee competencies. Robust administrative tools allow you to assign, track and manage staff training and progress. Our Quick Start Guarantee means you could have your own Online University up and running in as little as two weeks.

In the past 10 years, we have delivered more than 1.6 million hours of online training to more than 320,000 students. Some of our major LTC clients include Nexion, SeaCrest Healthcare, Carespring, UHS-Pruitt and Prostep Rehab.

**Geographic Area Served:** U.S. & Canada

**Segments Served:** SNF, AL, IL, CCRC

## 2010/2011 Product & Service Innovations

- **Newly Designed, Customized Online Universities** can be branded with your organization's logo and colors, and features access to more than 2,700 hours of accredited continuing education courses and 120 inservices, robust reporting tools for tracking staff training and support from a dedicated Healthcare Account Manager.
- **Course Library:** Our online universities come stocked with more than 500 online courses (accredited continuing education and inservices) from the most extensive library in the post-acute care industry. Our courses are AICC compliant and can be run in your learning management system, if you already have one.

## Suggested Consultative Discussions

- **Best Practices in Enhancing Education Delivery and Managing Costs:** We'll share with you how an online university solution can help you maintain compliance and save you money.
- **Linking Training and Education to Survey and F-tag Requirements:** We'll show you how we have developed online course curriculum specifically targeting survey deficiencies.
- **Best Practices for Managing Staff Education for License Maintenance:** We'll share with you how our one-of-a-kind learning management system allows staff to search for courses by license and keywords, making it easy to make sure you have met all of your continuing education requirements.
