

National Datacare Corporation

Company Description

National Datacare is a leader in resident fund services. We offer a unique service that improves cash flow, reduces bad debt, and improves process controls. Our product, the Resident Fund Management Service (RFMS), provides direct deposit of resident recurring benefit checks, such as SSA, VA and private pensions. Our goal is to provide LTC facilities a way to nearly eliminate bad debt due to non-payment of patient portions and improve cash flow by guaranteeing receipt of payments. The patient liability is immediately paid to corporate and the transactions are posted automatically to the trust and A/R system.

By providing this service to our clients, we promote better regulatory compliance and reduced fraud exposure by fully reconciling each trust account daily and producing all the required reporting. Information at all levels is available on our web site for corporate monitoring of accounts. We provide your treasury department with a single source for resident trust accounts and account maintenance.

We serve over 3,500 facilities including Golden Living, Kindred, Genesis, Life Care Centers of America, Extendicare, Sava, Family Senior Care, Fundamental, Nexion, and Consulate.

Geographic Area Served: U.S. Only

Segments Served: SNF

2010/2011 Product & Service Innovations

- **Web-Based Version of RFMS Software:** To be launched in 2010.
- **Remote Deposit Capture Feature Available in RFMS:** This new feature allows users to scan checks and transmit the scanned images for posting.
- **Expanded Banking Partner Relationships:** Providing access to 5,000 additional branches across the country.

Suggested Consultative Discussions

- **How to Improve Your Bottom Line:** Learn how our RFMS has been successfully implemented in numerous chains and why nine of the top ten skilled chains in the country use it.
- **Improve Process Controls:** Learn how you can improve audits, automate reconciliation and reduce fraud and abuse in your resident funds.
